

2095 '99 MAY 17 P3:08

4/27/99

I am on a drug for the rest
of my life that lowers my
ability to fight infection -
this issue is of importance
to me.

Mary a Messmer

As a member of the Center for Science in the Public Interest (CSPI), I urge you to save human lives by banning the use of medically useful antibiotics in animal feed. Adding antibiotics to feed in order to promote growth can make bacteria resistant to those antibiotics. And that can leave physicians with no way to treat life-threatening bacterial infections in humans. That's why I support the petition filed by CSPI.
